The Military University Institute of Portugal (IUM), is a public higher education institution for military studies that provides training and education to the Armed Forces and Guarda Nacional Republicana (GNR) Officers, enabling them to perform command and staff duties within their own branches, combined joint forces and within national or international institutions/organizations.

IUM offers a variety of postgraduate courses to the academic community, of which stand out the PhD in Military Sciences, the Master's Degree in Military Science – Security and Defense and several Post-graduations courses.

IUM is also responsible for several education and training courses, of which stand out the Flag Officers Course, the Staff Officers Course, the African Studies Course and the Civil-Military Cooperation Course.

The Military Polytechnic Unit (UPM) is also part of IUM. The UPM is responsible for promoting practice-based teaching and research activities, with the purpose of training Commissioned Petty Officers of the Armed Forces and GNR, enabling them to perform the functions that are statutorily assigned.

IUM has a Research and Development Centre (CIDIUM) in order to promote the realization of research and development (R&D) projects and the dissemination of scientific knowledge, namely in areas of interest for national security and defense, in collaboration with the national or international scientific community.
